

XL81

INFRARED HEATER

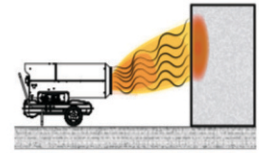

Diesel Fired No Smoke No Odor

Clean Quiet Radiant Heat

MCS[®]
CLIMATE SOLUTIONS

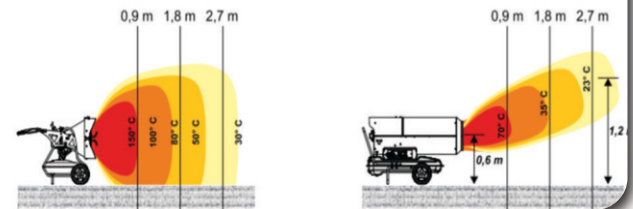

INFRARED HEATERS
HEAT OBJECTS

AIRFLOW HEATERS
HEAT AIR (AND OBJECTS)

SIDE VIEW

Similar to the sun, short-wave infrared radiation heats the objects without heating the air. Once objects (or walls) are penetrated with heat, they can also reradiate and heat other objects. Infrared radiation heats through fog or wind. Infrared radiation runs straight, on the contrary hot air flows upwards.

Infrared Heaters are an excellent solution for heating objects or people indoors or outdoors. The XL81 is over 98% efficient providing clean, quiet radiant heat without smoke or odor. Some applications / users would be:

- o Drywall Contractors
- o Plumbers
- o Mechanics
- o Carpenters
- o Bricklayers
- o Concrete Contractors
- o Farmers Ranchers
- o Emergency heat
- o Any where heat is needed!!

Instant Infrared Heat
Where you need it
When you need it

XL81

Diesel Fired Infrared Heaters

Clean - Quiet - Radiant Heat No Smoke - No Odor

XL81 Output

Power	95000 - 126,000
Tank capacity:	14 gallons
Fuel consumption:	0.72 / 1.03 gph
Thermostat control:	Optional
Rated current:	1.2 A
Power supply:	120/60 V/Hz
Net weight:	150 lb
Shipping weight:	180 lb
Packaging dimension (l x w x h)	40.5 x 29.5 x 46.5 inches

Options

Mechanical Thermostat

Digital Thermostat

XL9SR-M 147,000 / 100,000 btu
